

# ACCUDOSE™ DISPENSING SYSTEM

## with SafeSeal Technologies

- Our Innovative “ACCUDOSE” system is your economical solution for dispensing concentrated high quality Innovative chemical products.
- Our “SAFESEAL” technology offers a superior spill proof and tamper proof system that limits workers exposure to concentrated chemicals.
- The “ACCUDOSE” system assures accurate dilutions and provides greater safety for the public and the surfaces being cleaned.
- Our superior sealing design minimizes conversion cost and waste

Concentrated “ACCUDOSE” system products are available utilizing “SAFESEAL” Packaging technology:

- Minimizes conversion cost
- Provides a safer
- Minimizes supply chain problems
- Eliminates access & exposure to chemicals
- Reduces cost

## GURANTEED USE-COST

Economics are always a driving factor in any business decision, making “ACCUDOSE” essential to insure accurate conversion of our concentrated products in economical ready to use solutions.

The “ACCUDOSE” system provides control over use-cost by producing the dilution rates required, creating products that are never too strong or too weak. Unlike other proportion systems and dilution methods, the “ACCUDOSE” system is 100 % reliable.

## COLOR CODING SYSTEM

Color Coded Concentrated “ACCUDOSE” Products Available in the Following Packaging:

- 1 Gallon Containers
- 2.5 Gallon Containers

The “ACCUDOSE” color coded system provides essential control over the dilution process; as the concentrated chemicals are matched to the dilution dispensing tips, eliminating confusion and
